Body Language: New Acquisitions of Figurative Work

Event occurred on Sun, Jan 18 2015, All Day

Occurs from 12:00 am to 11:59 pm on Jan 18th 2015.

The human figure is used to tell stories, to symbolize existence, and to represent the human condition. Featuring works new to RAM's collection, Body Language reflects the human desire to study, analyze, and respond to the human body as form and content. Whether clay, fiber, or paint on canvas, the works included in this exhibition underscore the enduring artistic interest in the body as subject. Event Date Detail Jan 18, 2015 - May 3, 2015 Sponsored by Travel Wisconsin.
